

$O_2$  present  $\leftarrow$  Aerobic  
 $O_2$  absent  $\leftarrow$  Anaerobic

Alveoli  
 Balloon-like structure  
 Lungs

Autotrophic  
 Types

Holozoic

Complex food  
 broken  
 Simpler food  
 (Inside body)

Multicellular  
 Humans

Alimentary canal (Tube)

- Buccal Cavity
- Oesophagus
- Stomach
- Small Intestine
- Large intestine
- Anus

Heterotrophic  
 Types

Saprophytic

Complex food  
 broken  
 Simpler food  
 (Outside body)

Making food basic  
 Emulsification of fats  $\rightarrow$  (fat)  $\rightarrow$

Parasitic

Obtain food  
 Other organisms

Gall bladder  
 stores by  
 Bile juice  
 secreted by Liver

Associative glands

Pancreas

Trypsin  
 Digest  
 Protein

Lipase  
 Digest  
 food fat

Amylase  
 Digest  
 Carbohydrate

ALIMENTARY CANAL
